

Publication 60352-1 de la CEI
(Troisième édition – 1997)

Connexions sans soudure –
Partie 1: Connexions enroulées –
Règles générales, méthodes d'essai
et guide pratique

IEC Publication 60352-1
(Third edition – 1997)

Solderless connections –
Part 1: Wrapped connections –
General requirements, test methods
and practical guidance

CORRIGENDUM 1

Page 28

Ne concerne que le texte anglais

Page 29

4.5.3 Modified wrapped connection

In the second paragraph instead of:

The minimum number of stripped wires ...

read:

The minimum number of turns of stripped
wires ...

Table 8

Change the title of table 8 to read:

Table 8 – Minimum number of turns of
stripped wires

Table 8

*Change the heading of the second and
third columns to read:*

Minimum number of turns of stripped wires

Page 34

5.2.3.1 Résistance de contact

Figure 8

*Transposer les figures comme montré au
verso:*

Page 35

5.2.3.1 Contact resistance

Figure 8

Transpose the figures as shown overleaf

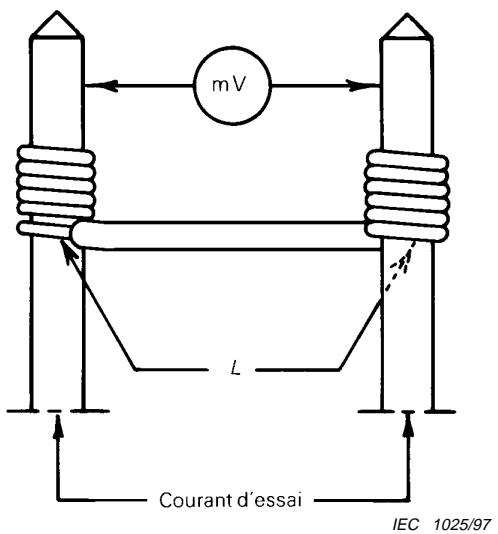

Figure 8a – Connexions enroulées simples

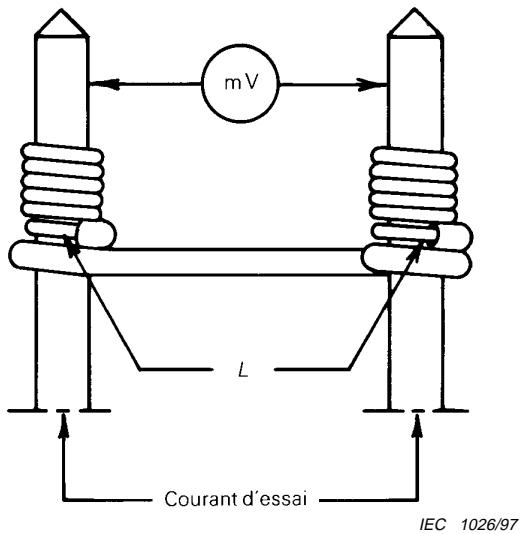

Figure 8b – Connexions enroulées renforcées

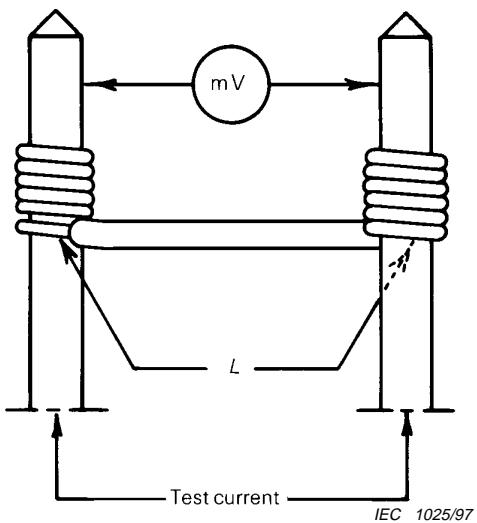

Figure 8a – Conventional wrapped connections

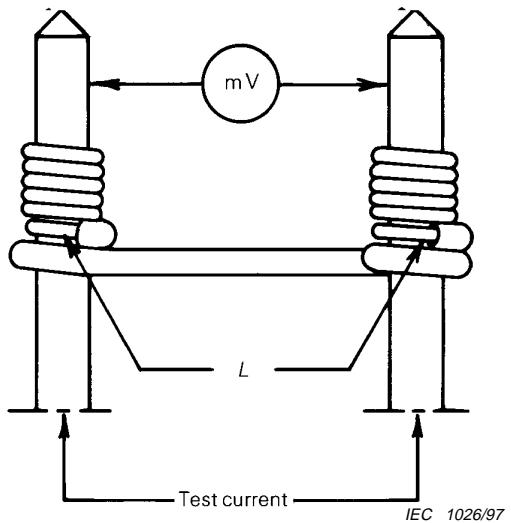

Figure 8b – Modified wrapped connections
